I have served on council for the past 4 years and I am seeking election for another term. My Background in farming, small business, corporate insurance career, mining, tourism and local government has prepared me well for the task at hand. I hold a degree in Economics and have a strong interest in environmental and economic sustainability for agriculture.

I believe that strong families are the fabric of a strong community and that a good local government plays an important part in achieving that community strength. By listening, talking and developing ideas with the community it serves, the council will achieve that strength and resilience within the community for what lies ahead in uncertain times. We are working to achieving that.

My vision is to make it bigger and better diverse place to live enjoy and grow old with family. Kojonup has a great future potential based on its location, as a town and farming center and the community that lives here.

Sincerely,

Kevin Gale.
