18th January 2011

To Whom it May Concern:

I would like to put forward my concern towards the proposed wind farm in the Kojonup Shire.

I am opposed to the proposal for the following reasons;

- 1) I feel that productive agricultural land should be used to produce food products, especially as there are growing food shortages worldwide.
- 2) It feels as though the proposal has been rushed (funding/ lack of information to the public until the crunch time) and that more community consultation is required.
- 3) Surely a wind farm would be better suited to an environment that is windier and has little or no arable land associated, ie a coastline.

Thank you and I look forward to greater community consultation prior any to amendments or approval of this project.

Regards
