To whom it may concern,

We are writing this letter requesting consideration for proposed changes at the Motel accommodation development at Lot 12-13 Albany Highway.

Currently we have approved plans for Unit 1 to be converted to DIS accommodation, however our proposal is to instead offer a purpose built, stand-alone DIS unit built and fitted out to meet all Australian DIS regulations This unit will be substantially larger with easier wheelchair access for guests and their vehicles to both the accommodation and the office.

The DIS unit will be cladded in the same material as our other units with its own wheelchair accessible car park and veranda. It will be set back 3m from boundaries and meet all safety and fire regulations.

Please find attached floor and site plans.

I look forward to hearing from you.

Thankyou and Kind Regards

Paul Webb
