

**Notice to all land owners and occupiers
within the Shire of Kojonup**

Pursuant to section 33 of the Bush Fires Act 1954

2018/2019 FIRE BREAK ORDER

By order of the Shire of Kojonup Council 15 May 2018
Rick Mitchell-Collins, Chief Executive Officer

BUSH FIRE BAN PHONE LINE: 9831 0145
EMERGENCY SMS LIST: SHIRE 9831 2400
BUSH FIRE EMERGENCY: 9831 1580 or 000

PROHIBITED BURNING TIME

5 November – 13 February

Permits may be issued between 5 Nov – 15 Dec for protective burning only. Between 16 Dec – 13 Feb no fires may be lit without the express permission of the Chief Bush Fire Control Officer. The Shire Council has authority to extend this date and you should consult with your local Fire Control Officer or ring the hotline on 9831 0145.

RESTRICTED BURNING TIME

1 October – 4 November & 14 February – 14 April

Permits are required for all fires lit during these Restricted Burning times and must be obtained from your local Fire Control Officer who will explain the conditions under which fires may be lit.

Permits will not be issued for townsite burning between 14 Feb – 14 Apr. Please note restricted burning times may be extended by the CBFCO, you should consult with your local Fire Control Officer or ring the hotline on 9831 0145.

NON RESTRICTED BURNING TIME

14 April – 30 September

Landholders must still take necessary precautions to keep their fires under control and on their own properties.

SPRAYING REMINDER

Chemical spraying of firebreaks on land within a gazetted townsite is to be completed to the Shire's satisfaction by the 15 September.

FIREBREAK INSPECTION WARNING

1 December – All firebreaks and fire hazard reduction measures to be completed on land within the gazetted townsite.

4 December – Council will conduct its annual firebreak inspection of all land within the gazetted townsite.

11 December – All protective burning and firebreak precautions to be completed on land outside the gazetted townsite.

13 December – Council will commence its aerial and ground inspection process of all land outside the gazetted townsite.

IMPORTANT DATES

BURNING RULES

1. Patrolling of all fires is the responsibility of the landowner or occupier for as long as the fire poses a risk. These include clearing fires as well as protective burning.
2. All adjoining landowners must be notified on the morning of the intended burn whether clearing grass or protective burning is carried out.
3. No fire to be lit before 1300 hours (1pm). As from the 1st April, lighting times may be at the discretion of the Chief Bush Fire Control Officer.
4. For all grass and stubble fires, no trees or heaps of logs are to be burning within 40 metres of the outside of the perimeter break.
5. All stubble/grass burns conducted within the restricted burning period must have a 2.4 metre wide perimeter break cleared of all flammable material.
6. All other conditions on a WRITTEN PERMIT to burn must be complied with.

NON-COMPLIANCE WITH THE ABOVE MAY LEAD TO PROSECUTION.

The above rules are to be observed in all cases unless your Fire Control Officer gives special approval to any alternative provisions.

TO REPORT A FIRE

Contact Either Zulu or Fire Control Officer in the first instance or dial 9831 1580 or 000.

Provide the following information:

- Your name and contact number
- Fire location (information such as landmarks, road names, your location and the direction of smoke and estimated distance is helpful in establishing fire location)
- If it is a private property, supply the property owners name if known
- Provide details of site access if known

RADIO COMMUNICATIONS

VHF Channel 41	Mid Band Channel
UHF Channel 3	Prior to arrival at firesite
UHF Channel 11	Upon arrival at firesite
Channel 234 or 229	WAERN

Do you require a Permit to Burn?

If so, the person who takes out the permit is solely responsible for all conditions agreed to on the permit.

Any damage or injuries that are caused due to negligence, are the permit holder's responsibility and may result in penalties being lodged.

There have been too many fires caused by permit burns in the Great Southern. Please take care and ensure all burns are monitored until they are extinguished.

GENERAL INFORMATION

BURNING RULES

Pursuant to the powers contained in Section 33 of the Bush Fire Act 1954, you are hereby required to have firebreaks clear of all inflammable material, in the position, of the width, and for the period as specified.

1. Urban Land (Land within a gazetted townsite)

During the period from the 3rd December to 31st May inclusive, you shall have the following firebreaks:

- On all land, regardless of size or how the land is zoned, a firebreak of no less than 20metres wide cleared of all inflammable material surrounding the perimeter of any homestead building, fuel installation (included drums), or group of such structures or installations. If burning is the method of hazard reduction employed; the inner and outer 2.4 metres of the firebreak must be totally cleared of all inflammable material prior to a burn being undertaken.
- On all land that is 4,000 square metres or less, regardless of how the land is zoned, all remaining flammable material to be reduced to a height of less than 50mm.
- Owners of property with an area greater than 4,000 square meters adjacent to developed residential property, a 20 metre boundary firebreak cleared of all flammable material on the land abutting residential land.
- Where chemical spraying is the method chosen as the means by which firebreaks are constructed, this is to be completed to the Shire's satisfaction by 15th September. If not, the Shire will do the work at the landowners' expense.

2. Rural Land (land outside a gazetted townsite)

Homesteads, Buildings, Haystacks, Bulk Fuel, Drums and Liquid Petroleum.

During the period from 14th December to the 31st May inclusive you shall have firebreaks at least 20metres wide, if provided by burning, cultivating or spraying, or 60 metres wide if provided by being closely grazed or mowed to the satisfaction of the Shire. The firebreaks are to be in such positions as are necessary to completely surround the perimeter of any homestead building (excluding isolated non flammable buildings), fuel installation (including drums), hay stacks (but only haystacks within 60 metres of any building) or group of such structures or installations. In each case, the outer 2.4 metres of the firebreak area must be totally free of any inflammable material and where mowing is the method used; all residue of the mowing process must be removed from the area.

3. Plantation/Tree Farm Land

- Firebreaks shall be 15 metres wide on the boundaries of all plantations, tree farms, or such other locations as may be agreed to by the Council.
- Firebreaks shall be constructed around plantation compartments of approximately 50 hectares.
- A 50 metre perimeter firebreak around all buildings and fuel storage areas, cleared of all flammable material is required.

URBAN / RURAL / PLANTATION LAND

Plantation/Tree Farms – An area exceeding three hectares planted for commercial purposes.

Boundary Firebreaks – (15 metre requirements) – a boundary firebreak is defined as an area fifteen metres wide cleared of all flammable materials and having no overhanging tree branches, to provide a vertical clearance of at least five metres.

Planting Compartment – An individual area of approx 50 hectares surrounded by firebreaks cleared of all flammable material ten metres wide and five metres vertically. Internal firebreaks must be maintained in a trafficable condition and if needed trees on both sides of the firebreak are to be progressively pruned to allow unrestricted access to maintenance and fire fighting equipment to maintain an effective width of firebreak.

Powerlines

If a main power line failure occurs when a Movement of Vehicle Ban is in operation, report to the Chief Bush Fire Control Officer.

Western Power has a minimum requirement of ten metres clearance either side of the outside power pole. Generally, the clearance distanced from the powerline should be no less than the expected mature height of the trees planted in the outside row. However, in all instances where power lines are crossing land where it is proposed that plantations be planted, the owner should consult with Western Power, Bunbury 131351 for advice.

Boundary Firebreaks

Boundary firebreaks are not compulsory within the Shire of Kojonup Rural Area.

Exemptions

If it is considered impractical for any reason to clear firebreaks on the land as required by this notice you may apply to Council or its duly authorized officer no later than 60 days prior to the date by which firebreaks are required as per this notice for permission to provide firebreaks in alternative positions or take alternative action to abate fire hazards on the land. If Council or its duly authorized offices does not grant permission, you shall comply with the requirements of this notice.

Firebreak Inspection

In following the method adopted by Council to inspect the firebreaks required in this notice, it is not necessary for Council to notify you or give you any prior warning that legal action may proceed for failing to comply with the requirements of this notice.

Penalties: An infringement of \$250. A Penalty of up to \$5,000. A person in default is also liable, whether prosecuted or not to pay the cost of performing the work directed in this notice if it is not carried out by the required date.

Harvesting

As per the Bush Fires Act 1954, it is compulsory that an engine powered pumping unit and not less than 600 litres of water must be in attendance during grain harvesting operations. Trailed units must have the towing vehicle attached at all times. The fire fighting unit must be located in or immediately adjacent to the paddock being harvested at all times.

Penalties: An infringement of \$250. A Penalty of up to \$5,000.

Swathers, Balers and Track Chainers

These are subject to the same conditions as Harvesting i.e. an engine powered pumping unit and not less than 600 litres of water be in attendance during operations from 1st Dec onwards (excluding canola swathings).

Oxyacetylene, Arc Welders, Friction Cutting Equipment etc.

These are subject to the same conditions; whilst used in the open; as swathers and balers and in addition, the work site must be adequately cleared of flammable material before the use of the above equipment
